EVENTS NO LONGER CONTESTED

Due to changes in standards within athletics, some records are no longer contested at the carnival. These events are recognised below.

In 2016 the 9 Years events were moved from 80m to 100m and 400m to 800m to align with the events held at the APS Carnivals. The same change has been made to the 9 years relay.

In 2011, implement weights for the girl's javelin and shot put weights were changed to align with the IAAF specifications. 14-17 year old girls moved from a 600g Javelin to a 500g Javelin and 4kg shot to 3kg shot.

In 2008, The 13 year's girl javelin was changed from a 600g to 400g implement.

All records held before the distance/weight changes are listed below and if unbroken, still exist in the current records.
