

Quality, Inexpensive Guitar Lessons for Children

- Are you thinking about music lessons for your child but don't want the expense and hassle of buying an instrument?
- Are you unsure whether your child will like lessons?
- Do you want to give your child the experience of learning guitar at a fraction of the cost of private lessons?
- Would you like your child to learn in a fun and social environment?
- Would you like your child to have lessons out of school hours?

In Term 3, an eight-week course is being offered to 6 to 9 years who would like to experience learning guitar.

Guitars are provided for the lessons, which are being held at school on Friday mornings from between 7.30 and 8.15am.

This is a 45-minute lesson and represents a substantial saving to parents on the cost of a term of private lessons. Total cost to parents is \$120.

There is a catch and that is that there are no catch-ups for missed lessons, lessons must be paid for in full before commencement and the **class will be limited to 10 students.**

The A.B. Paterson College Kids Guitar Club will use a newly developed, age appropriate system that enables a young student to easily learn how to play guitar and read music based on their natural learning processes. More information on this method can be found by visiting www.copyplayandlearn.com
